SWEPT BY BLIZZARD

New York City Under a Deep Mantle of Snow.

TRAFFIC GREATLY IMPEDED

Storm Coming Suddenly Upon Heels of Warm Wave Caught the Unemployed and Poorer People Unprepared—Much Suffering Resulting.

New York, Jan. 25—The snowstorm which swept over the city late Thursday developed into a blizzard during the night. Friday the city streets were piled deep in places with drifts and street car traffic and the movement of ferryboats and other craft was badly hampered. The steam roads were also seriously delayed. This forenoon there is more than nine inches of snow and there appeared to be no immediate prospect of a cessation.

Caught Them Unprepared.

Coming suddenly upon the heels of a long period of warm weather, the storm caught the unemployed, the homeless and the poorer people of the East Side totally unprepared. Many who had in the warmer weather found shelter in wagon sheds for the night were driven out and there was a rush of the homeless to the city lodging houses and charitable institutions.

For the first time this winter the city lodging house was overcrowded and the covered pier of the charities department at the foot of East Twenty-Sixth street, was turned into an emergency lodging house. Many applications for shelter were received at the various police stations.

Her Feet Frozen.

While the storm was at its worst, Mrs. Clara Vorveck was found wandering in the streets in Brooklyn clad only in her night clothing. Her feet were frozen when the police found her.

The work of removing the snow was begun early and many hundreds of men who were in sad need of employment were given work clearing the thoroughfares

The body of a man about whom nothing is known except that his name was James Smith, was found under a stoop in East Twenty-third street. He had crept under the stoop to seek protection from the storm and had frozen to death.

Traffic conditions improved very slowly if at all in the city and its suburbs during the forenoon.

In Brooklyn transportation lines were almost at a standstill.

The long cut on the Brighton Beach line, extending the whole length of Prospect park, was completely filled with snow and no trains were running. Traffic also was suspended on the Culver line and the West End line to Coney Island, and the surface cars to that district were moving only about half headway. The Thirty-ninth street ferry line made no attempt to operate. A forty-minute blockade on Brooklyn bridge added to the discomfort and delay.

Electric Trains Stopped.

On the Long Island railroad it was found impossible to run any electric trains on the line from Brooklyn to Jamaica.

Marine observers report the storm to be particularly severe off the coast.

Boston, Jan. 24.—Southeastern New England Friday experienced a northeastern snowstorm which began Thursday night. The wind blew thirty to sixty miles an hour. The storm delayed railroad and street car traffic.

Theatrical Report Denied.

Mobile, Ala., Jan. 25.—Gaston Newbrik, manager of the Lyric theater, denies positively that a deal has been closed by Jake Wells whereby he is to take over the house on Feb. 1. Mr. Newbrik said that the report that this deal has been made is absolutely incorrect and no negotiations are pending for the transfer of the place.

WANTS PROFESSORS KILLED.

Startling Statements Made by Prof. Muensterberg of Harvard.

Chicago, Jan. 25.—In an address to the German society of Chicago, in Fullerton hall Thursday night, Professor Hugo Muensterberg, of Harvard university, declared that American universities would be better off if two-thirds of the professors were killed. He said:

"There seems to be something weak and molly-coddle about our whole academic system. In our highest institutions of learning we find, with a few notable exceptions, only second-class men. And we may be sure second-class schoolmasters never will build up a first-class scholarship.

"An increase in the salaries of the assistant professors and instructors in our colleges and universities by a few hundred dollars a year will never accomplish anything. What is needed is great premiums at the top.

"One of the greatest evils from which our American universities suffer is too great an abundance of men. As soon as an institution gets some money the first thought is to add more men to the faculty, to out-do some neighbor institution. Every one of our American universities would be nearer to the ideal if it would kill two-thirds of its instructors and professors."

BRIEF DISPATCHES.

In Pennsylvania, New Jersey and Delaware, snow has reached a depth of six inches. The storm is worst in New Jersey, where the railroad traffic is badly crippled.

Presidents of state universities of the United States closed their convention in Chicago Thursday night after adopting a resolution petitioning congress for the creation of a national university at Washington, D. C., for the schooling of post graduates.

A Japanese has been discovered on the island making sketches of Honolulu, Pearl harbor and the coast line from the heights behind the city of Honolulu, Hawaii.

Suit has been filed in the circuit court at Lexington, Ky., by Benjamin M. Lanning, of this city, and others, against the Standard Trust company, of Birmingham, Ala., asking that a receiver be appointed for the company.

The supreme court of the United States has denied the petition for an appeal in the Chicago street railway reorganization case.

HEIRS OF GEO. WASHINGTON.

They Are Soon To Receive Part of an Estate Valued at $1,000,000.

Chicago, Jan. 25.—A dispatch to the Record-Herald from Weatherford, Tex., says:

The Brazleton family of this city, heirs of George Washington, first president of the United States, will soon receive part of an estate of 40,000 acres valued at $1,000,000 in the Clermont district, Ohio.

According to a message received on Thursday from Washington, D. C., J. W. Brazelton, a banker; B. F. Brazelton, a physician, and R. L. Brazelton, a farmer, and Georgia relatives, will also receive a share in the estate.

Washington having no children, left the Ohio estate to his nephew, General Nathaniel Green, and his niece, Hannah Green. Jacob Brazelton, grandfather of the Texas heirs, married Hannah Green.

Town Is Taken By Revolutionists.

Port-Au-Prince, Hayti, Jan. 25.—The revolutionists have taken possession of the town of Port de Paix, 35 miles west of Cape Haytien. An English and a French cruiser are expected on the coast shortly. They will give protection to British and French interests. Charles Miot, the American consular agent at St. March has been removed from office by the American legation because of his complicity with the rebels. Miot is a Haytien.

Will Act as Escort.

Montevideo, Jan. 25.—Five Argentine warships passed here Friday on their way to receive the American

3 DEAD, 16 INJURED

Fatal Fire Occurs at Baltimore, Maryland.

LOSS ESTIMATED AT $400,000

Among Those Who Were Injured Was the Chief of the Fire Department. Heroic Work of Firemen to Save Imperiled Comrades.

Baltimore, Md., Jan. 25.—Fire, at an early hour Friday morning, took heavy toll of the members of the fire department of this city, three being dead and sixteen others more or less seriously injured.

The list of the latter includes the name of George Horton, chief of the fire department, who is in a serious condition. The chief has a badly lacerated scalp and internal injuries.

Those killed are:

Lieutenant Frederick Harman, William B. Pugh, and an unidentified man thought to be Emil Morrin.

The financial damage is estimated by Mayor J. Barry Mahool, who was early on the scene, at $400,000.

Worst Fire Since 1904.

The blaze, which is the worst that has occurred in this city since the calamity of 1904, started on the third floor of the building on the southeast corner of Holliday and Saratoga streets, occupied by the J. Register Sons & Co., plumbers' supplies.

The fire had apparently been burning some time before it was discovered. The first alarm was quickly followed by a general alarm, which brought most of the fire apparatus in the city to the scene. A strong wind from the northwest and a very low temperature made the work of fighting the fire more than ordinarily difficult and the flames spread rapidly.

In an incredibly short time after the blaze broke out of the windows on the Saratoga street side of the Register building, and without the slightest warning, a large section of the north wall of the large building fell. It was this that scattered death and injury among the firemen, who were working close to the building.

Change of Wind Favored Firemen.

For a time it seemed that the fire would sweep diagonally through the block to Gay street, and a number of people living on that thoroughfare moved their effects. Changes in the wind, however, helped the firemen and enabled them to confine the damage to the plants of the E. B. Read & Sons Co., printers, and T. Flynn & Emerich company, machinists, located in a five story building on Saratoga street in the rear of the Register building, the Leonhart Wagon company, Saratoga street, opposite the building, in which the fire originated, the old city hall building and the Zion school building.

Heroic Work to Save Comrades.

When the wall of the Register building fell members of the fire department and policemen, utterly disregarding the fact that another section of the building seemed about to topple into Saratoga street, worked frantically to rescue their injured comrades and recover the bodies of the dead. The latter were badly mutilated and the former were, in some instances, almost stripped of their clothing.

While responding to the alarm a hose wagon and a fire engine collided and five of the men on the engine were injured, one of them seriously.

$1,000,000 FIRE AT PORTLAND.

Worst Since Great Conflagration of 1866—Many Lives Endangered.

Portland, Me., Jan. 25.—A fire, which caused a property damage of a million dollars early Friday morning, destroyed the city hall and police buildings, and endangered the lives of more than 700 persons.

Although known as the city hall, the building was divided between city and county offices, while the police building sheltered the supreme, judicial and municipal courts in addition

of 1866, when the city's business and residential sections were almost completely wiped out.

That there were no fatalities is remarkable, as there were more than 700 persons attending the Western, Me., Knights of Pythias jubilee gathered in the auditorium of the city hall when the flames were discovered. Only a few persons were hurt, chief Engineer Melville Eldridge being the only one known to be seriously injured.

One of the most valuable libraries in the state, the Greenleaf law collection, was completely destroyed.

ARGUMENTS CONCLUDED.

Federal Judge Jones Takes Railroad Rate Case Under Advisement.

Montgomery, Ala., Jan. 25.—The arguments in the railroad rate litigation before Judge Thomas G. Jones in the United States court, came to an end Thursday.

The matter has been taken under advisement, the oral arguments to be supplemented by briefs and affidavits. It is not likely that Judge Jones will reach a decision for several days. The closing speeches were made for the state by Horace Stringfellow and for the railroads by Gregory L. Smith of counsel for the Louisville and Nashville.

In the meantime the rate and regulation acts of the recent session of the legislature are held up by a restraining order issued by Judge Jones some weeks ago.

PASSENGER TRAIN EARNINGS.

Increase in Texas Roads for Five Months Was $1,282,560.

Austin, Tex., Jan. 25.—The state railroad commission Thursday gave out a statement showing the passenger earnings for Texas railroads for the first five months of the present fiscal year ending Nov. 30, 1907, as $11,610,594, against $10,329,034 for the same roads in the corresponding period of the preceding fiscal year.

This shows a net increase in passenger business on these lines for the five months named of $1,282,560.

These figures were obtained from the sworn reports of the railroads.

$15,000 Fire at Albany, Ga.

Albany, Ga., Jan. 25—A spectacular fire, which was fought for hours before it was conquered and which destroyed property variously estimated at from $8,000 to $15,000, occurred Thursday afternoon in the yards of the Boggs-McNeill Cross-Arms company, manufacturers of telephone and telegraph cross-arms. The fire exhausted all available hose in getting two lines to the blaze, which was feeding on heart pine. For a long time it appeared that more than two million feet of cross-arms would be destroyed, though dogged work kept the loss within half what had appeared inevitable. It is estimated by the manager of the company that the loss is half covered by insurance. None of the buildings were damaged.

Desperadoes Captured.

Knoxville, Tenn., Jan. 25.—Three of a gang of negroes who brained a Cincinnati Southern telegraph operator, John Brown, at Annadel, Morgan county, Tennessee, and later shot and killed a bridge watchman, David Langley, last Saturday night, have been captured or killed. One, name unknown, was killed Monday by a posse. A second one was captured here Thursday and is now lodged in jail at this place for safe-keeping. The third surrendered to a farmer living near Wartburg, after he had been shot by a posse pursuing him. He was turned over to the sheriff of Morgan county, who started for Knoxville with him.

PLOT AGAINST KING

Attempt Was Made to Overthrow Monarchy of Portugal.

WAS NIPPED IN THE BUD

Plan, It Is Stated, Was to Assassinate Premier Franco and Then Depend for Success on Street Uprisings—Ringleader Captured.

Lisbon, Jan. 25.—An abortive attempt to overthrow the monarchy and proclaim Portugal a republic was nipped in the bud Wednesday night by the prompt action of the government. The plot was organized by a small group of advanced republicans. As near as can be ascertained, the plan was to assassinate Premier Franco and then depend for success upon street risings, supported by secret republican and labor organizations armed with bombs and revolvers.

The police discovered what was in the wind early in the evening and surrounded and raided a house where the ringleaders in the plot were conferring. When they broke in the doors, the lights were extinguished and in the confusion which followed most of the conspirators managed to make their escape. Several of them, however, were captured, including the leader, Joam Chagros, a republican journalist, who was president in the republican revolt in 1891; Franca Berger, editor of Omundo, and a merchant by the name of Grendella.

A case of revolvers and bombs was found in the cellar. A general alarm was immediately sent out, and while the prisoners were being taken to jail troops began to appear from all directions. A squadron of cavalry was placed around Premier Franco's house, and the night passed without further incident.

TRIED TO LYNCH ENGINEER.—

He Opened Throttle, Dashed Through Crowd, Killing Six Men.

Baku, Trans-Caucasia, Jan. 25—In consequence of the accidental killing of some laborers by a locomotive at a suburban station of the railroad here Friday a mob of comrades of the victims surrounded the engine and attempted to lynch the engineer.

To escape the fury of the excited workmen, the engineer opened the throttle of the locomotive and dashed through the crowd, killing six men and wounding many others.

Shriners Lose Their Baggage.

Waco, Tex., Jan. 25.—A party of one hundred Shriners from St. Louis, Chicago and Kansas City, returning from the City of Mexico, where they had been to institute a new organization, had their baggage car containing the entire baggage of the party and all curios gathered in Mexico burned seven miles south of here on the Missouri, Kansas and Texas railroad on Thursday. A gasoline can exploded causing the blaze. The party lost all their effects.

Orders Investigation.

Jefferson City, Mo., Jan. 25.—The Missouri board of railroad and warehouse commissioners have ordered an investigation of alleged ownership by the St. Louis and San Francisco railroad company of the Kansas City, Clinton and Springfield Railway company, in violation of the law prohibiting the consolidation of parallel and competing lines.

Killed While Resisting Arrest.

Nashville, Tenn., Jan. 25.—Near Hickman, Ky., Thursday afternoon, Frank Conley, charged with bootlegging, and known as an all-round bad man, was shot and killed by Jack A. Rogers, an officer, while resisting arrest. It is said that Conley came from a well-to-do family in Nebraska.

FINE PROGRAM FOR FARMERS' INSTITUTE

Many Prominent Speakers Will be Here From Every Section.

GOV. BROWARD WILL MAKE TALK

Representatives of Cattle Growers' Associations from Various Sections Will be Present to Illustrate in a Practical Way the Cattle Industry.

The coming Farmers' Institute, which is a State meeting of the farmers, which will be held in this city on Wednesday, Thursday and Friday, February 5, 6 and 7, continues to attract a great deal of interest by its promoters, at the head of which is Prof. P. H. Rolfs, director of the Experimental Station of the University of Florida.

A most interesting program has been arranged for this occasion, and many speakers of National and State reputation will be present to address those in attendance.

Among the speakers to address the Institute will be C. R. Thomas, secretary and representative of the Hereford Association of Kansas City, Mo.; Col. W. A. Harris, representing the Shorthorn Association, Col. W. Goodwin of The Breeders' Gazette, Chicago; Dr. Andrew W. Soule, president of the Georgia Agricultural College, Athens; Governor Broward, Dr. C. A. Cary, and others.

The program as arranged is a most interesting one, and is as follows:

Wednesday, February 5, 7 p. m.—Address of Welcome, W. R. Thomas, mayor of Gainesville. "Agriculture in the University," Dr. Andrew Sledd, president of the University. "The Florida Live Stock Association," S. H. Gaitskill, president of association, McIntosh. "The Florida Farmer," Prof. F. G. Schell, secretary of the Cotton Growers' Association, Lake Butler.

Thursday, February 6, 9 a. m.—Exhibition of Cattle to be Slaughtered, Dr. C. A. Cary, superintendent Alabama Farmers' Institutes. "The Herefords in Florida," N. A. Callison, Spring Park Stock Farm. "The Herefords on the Range," C. R. Thomas, secretary and representative of the Hereford Association.

Noon—Barbecue, citizens of Gainesville.

Exhibition of Slaughtered Cattle, showing good and poor points, Dr. C. A. Cary. "Tick Fever and Its Eradication," Dr. E. P. Guerrant, Ocala. "Florida Agriculture," Hon. B. E. McLin, Commissioner of Agriculture.

PHIFER & MORRIS SALE.

Twenty Thousand Dollars' Worth of Clothing, Etc., Must Go.

As will be seen elsewhere in this issue, the Phifer & Morris Company, who are among the largest and most reliable clothiers and gentlemen's furnishers in this section of the State, propose to begin tomorrow, January 27, a great slaughter sale, at which clothing and gents' furnishings will be sacrificed at prices never before heard of in Gainesville.

This slaughter sale will continue for six days—one week—and those in need of clothing and furnishings would do well to make an inspection of their line and their prices before buying. In this sale the celebrated wool clothing of Hart, Schaffner & Marx, which is standard the country over, will be found on the tables, marked down in plain figures.

At this sale all suits and overcoats will be placed on sale at only three prices—$5, $10 and $15—and the goods must go at one of these prices.

Sacrifices are also made of gents furnishings, hats, shoes, underwear, trunk, bags, valises, etc., which will prove startling to those who really know the value of the goods.

The new lodge building of the St. Augustine Elks will be dedicated on Wednesday, the 29th inst.

HEMSTREET, THE HYPNOTIST.

The Moultree (Ga.) Observer Says His Work is Marvelous.

The biggest laugh Moultrie has let loose for a long time was heard at the opera house last night when four hundred people roared at the hypnotic performance of Prof. Hemstreet. He had a number of our best citizens on the stage and had them thoroughly hypnotized, and the funny things he had them do were convulsing to the audience. It is impossible to particularize. Suffice it to say, that it was as funny as a dozen comedians with a circus thrown in. Many who saw the demonstration last night laughed so much they are almost sick today. The time has gone by when intelligent people cry fake over such power as he possesses, and his entertainment affords a pleasing variation from the general run of theatrical performances and one can attend them and enjoy a hearty laugh. The Professor will give his last performance tonight and those who were not present last night should not miss a wonderful exhibition, as some of our best people have promised to be hypnotized and the audience is sure to get its money's worth.—Moultrie (Ga.) Observer.

S.S.S. CURES BLOOD POISON

A SAFE HOME TREATMENT

In S. S. S. nature has provided a certain, safe, home cure for Contagious Blood Poison. It is a medicine made entirely of roots and herbs of recognized blood-purifying value, and is the one medicine which is able to get down to the root of the trouble and remove every particle of the virus, and at the same time benefit and build up the system and general health. No harmful effects ever follow its use, as is so often the case when strong mineral medicines are used. As soon as the system gets under the influence of S. S. S. the disease begins to improve, and when the remedy has thoroughly purified the blood and driven out every trace of the poison, no signs of the trouble are ever seen again. The general manifestations of Contagious Blood Poison such as falling hair, copper-colored spots, ulcerated mouth and throat, sores and ulcers, etc., are merely symptoms of the poisoned condition of the blood, and in most cases respond quickly to local treatment, while S. S. S. is doing the necessary work of cleansing the blood. Our "Home Treatment" book is of great assistance along this line. It is a complete guide for treating the trouble, containing instructions for the different stages of the disease, and also valuable suggestions about the local treatment, that will be most helpful in effecting a cure. We will be glad to send a copy of this book, free of charge, to any who desire it, and if special medical advice is wanted our physicians will take pleasure in supplying it without cost to the patient. If you are suffering with Contagious Blood Poison you can cure yourself in the privacy of your own home by the use of S. S. S., an absolutely safe remedy.

SOME SEWER JOBS BEING CONDEMNED

Many Expensive Connections Being Turned Down by Inspector.

INSPECTOR MILLER IS ACTIVE

He Regrets Very Much the Necessity of Being Compelled to Put Owners to Extra Expense, But Will Not Permit Inferior Work to Remain.

During the past few days Plumbing Inspector Miller has been playing havoc with some of the "jobs" of plumbing which have been installed in this system throughout the city, finding it necessary to condemn the work in the residences of our most prominent citizens, on account of the unsanitary conditions. This condemnation has caused the necessity of having all the plumbing torn out and properly reinstalled.

Inspector Miller, in speaking of the matter, stated that this was an unfortunate condition of affairs, and very unfortunate on the part of those who were victims of improperly installed jobs. He could not help that, however, notwithstanding the fact that these citizens had given their work to apparently irresponsible plumbers, from whom they could recover no damage, and against whom they had no redress.

"Few people seem to realize the danger attendant upon cheap and unsanitary plumbing, and I regret to see such work installed. Speaking from an entirely impartial standpoint, I consider that I am doing the people a favor when I assure them that it is cheaper in the end to employ nothing but the best material and the most skillful labor."

While Inspector Miller regrets very much the necessity of his action, he states that he is appointed to do his duty in the matter of inspection of sewerage, and feels that, when a connection is condemned, he is really doing the party who owns the connection a favor, as some of the sewers would have produced constant sickness by reason of sewer gas.

MURDER AT NEWBERRY.

Jim Hill Assaulted Jim Smith With Piece of Iron, Causing Death.

Deputy Sheriff Geo. W. Livingston of Newberry arrived in the city Saturday with Jim Hill, a negro who was arraigned in Justice E. T. Henderson's court upon a charge of murder, and committed to jail in default of $1,000 bond.

On January 22, it is alleged that Hill assaulted one Jim Smith with a piece of flat iron, striking him a severe blow on the head, from which he subsequently died.

HOG TOWN CREEK BRIDGE.

Bridge Over Newberry Road Ford Was Completed Friday.

Supervisor J. R. Emerson of the county roads has just completed a bridge over Hog Town creek on the Newberry road, which will be appreciated by those who have occasion to travel this thoroughfare, as this ford has been very inconvenient in extremely wet weather, in many instances being impassable.

This bridge is thirty-six feet long on the span, and stands at an elevation of four feet, seven inches above low water. It is supported by concrete piers, and altogether is a most substantial structure.

The county is under obligations to Mr. Bock, the lumber manufacturer who owns and operates a sawmill a short distance west of the creek, for the lumber in this bridge, which was furnished absolutely free to the county.

The first to try the bridge was "Old Roan," a mule which has been in the service of the county on road work for eighteen years, and which, Mr. Emerson declared, is "afraid of nothing." The bridge worked admirably under her weight, and Mr. Emerson is well pleased with his job, and believes the bridge will prove of lasting and great advantage.

Mr. Bock was the first who had the privilege of crossing the bridge in a team, and expressed himself as being well pleased.

Supervisor Emerson is making good progress on the road to Newberry, which is being constructed of clay, and which is destined to prove of great benefit. Nearly nine miles of right-of-way have been opened, and work on the roadbed is progressing nicely.

A Pleasant Party.

Complimentary to those who so kindly and willingly assisted her in making the musical of Friday night, the 18th, such a success, Mrs. J. B. Cutler tendered a private car party and a trip down the Tampa and Jacksonville railroad Thursday.

The Tuscawilla, the private car of Superintendent Cutler, was used for the occasion, and an elegant luncheon was served aboard the car. The party spent the day delightfully, returning to this city about 5:30 in the afternoon.

Those who enjoyed the hospitality of Mr. and Mrs. Cutler upon this occasion were Mesdames Dunham, Prindle and J. F. McKinstry, Jr., Misses Burkhim, Fennell, Lovie Goode, Zeigler, Alice Thomas, Pound, Eddy and Bowers, and Mr. J. A. Goodwin.

Why

Should your baby suffer? When he is fretful and restless, don't experiment on him and use any old thing your neighbor recommends. Buy a bottle of White's Cream Vermifuge, greatest known worm medicine and cure for children's diseases. It is mild in its action, builds up the system, makes thin, puny babies fat. Mrs. J. C. Smith, Tampa, Fla., writes: "My baby was thin and sickly, could not retain its food and cried all night. I used one bottle of White's Cream Vermifuge and in a few days baby was laughing, happy and well." Sold by W. W. Johnson.

North Gainesville Entertainment.

The good people of North Gainesville, always awake to the times, gave a delightful entertainment, "The Peak Sisters," at North Gainesville Hall Friday evening. The affair was well attended. Refreshments were served, the proceeds of which will be devoted to building a chimney for the hall.

The entertainment was given under the auspices of the Christian Endeavor Society, the refreshments being served by the Sunday school.

It is said that Taft will probably be endorsed on the first ballot in St. Augustine, and the St. Augustine saloon keepers are disappointed, for they were anticipating a dead-lock for three or four days.

Notwithstanding that leaders of the Republican State organization declare the Florida delegation will be solid for Taft, there seems to be a lack of oil in some of the machinery. Forsaker seems to hold a good hand in some of the counties.

The State Federation Convention has come and gone, and the old familiar noise of the saw and the hammer is again heard in this section—but with less regularity than before the convention assembled. However, this is no reflection on the organized labor of this city—the delegates have gone—and taken their grips with them.

The differences existing between Minority Leader John Sharp Williams and his political colleague on the committee on rules, Dr. De Armond of Missouri, which caused a personal encounter just before the holidays, were further emphasized last week in the course of the consideration of the criminal laws. It was thought that these two representatives had patched up their seemingly temporary differences, but evidently their viewpoints are totally different and there may be wordy contests between them many times during the session of Congress.

While we of Florida, like a child fed on good things and who enjoys the luxuries of life, are complaining about this "outrageous weather," we should pause long enough to remember that, while we are basking in a delightful sun-bath with the temperature lingering 30 degrees above zero, our unfortunate friends in the North dare not put their heads out without heavy furs, without the probability of a frost-bitten foot or nose. Florida is the grandest State in the Union—and we might add the grandest spot in the world. Some of us are lacking in gratitude.

This section evidently laughs in the face of the "panic" which has been prevalent in the North for the past few months. If one should take a drive over the city and note the many handsome buildings which have been erected during this "panic," he would do nothing else but come to the conclusion that this panicky wind had been blowing the other way. It has certainly not affected our people to any extent except the increase in price of commodities, which were created in the North, and not here. However, our people are managing to live, and from all accounts the merchants have experienced no falling-off in the amount of goods consumed.

WHAT MAKES A CITY.

(By F. P. Henderson.)

I realize that this is a question of too much magnitude and depth for my ability—too big for me—but having lived in Chattanooga, Tenn., and having had the honor of being a small factor in making it grow from a city of 12,000 inhabitants in 1880 to a city of 65,000 in 1892, I feel that I might say something which would cause our business men to think. If I can do this, I shall be well paid for my feeble effort.

There are so many elements of importance in the making of a city, that it is hard to see that any one thing predominates over all others; yet it is true. It has been said that a city to be prosperous and grow must have the saloon, with all of its influences, but the fallacy of this has been so completely proven by Gainesville, Kansas City and many other cities, that I need not spend any time on it.

Another says, money makes a city. Money alone never built a city. Money in the hands of men who love ease and pleasure, or who use their money only to make more, will never build much of a city.

Another says, national resources build a city. While this is an important factor, yet it is not absolutely necessary. For instance, no city perhaps in this country was ever located in a county with less natural resources than Atlanta, Ga., yet it has made a magnificent city. Few cities are located in a county of greater natural resources than Gainesville.

Another says, railroads are the most important factor in building a city. Still another, that educational advantages are the most important, etc.

I admit, these are all very important, but there is one factor that towers above them all, and without which no city ever becomes a great city. That factor is, MEN—broad-minded men—progressive, enterprising men—men who think more of their country and its welfare than they do of their individual gain—men who are willing to spend their own money and that of the people for the public good.

With a good board of trade composed of such men as that—and we have many of them—might be made a great city.

Gainesville is situated in the midst of abundant natural resources—if properly manipulated and manufactured at home, would be able to support a city of 50,000 population.

But where are these resources going? Our phosphate mostly goes to Europe in the crude state. The same is true of our cotton. The same is also true of our hard wood. Our pine, much of it, goes out of the country in the log. The natural resources will soon all be gone, and what has Gainesville gotten out of it?

Then, as to educational facilities: No city in the South has any better. Two things, we have, that the people do not yet half appreciate, viz: the State University and the Florida Mid-Winter Bible Conference and Chautauqua. Many people are coming to Gainesville on account of these and many more would come if they knew of these advantages.

Talk about money! Gainesville and Alachua county has enough money if properly handled to build a city of 50,000 people. Every dollar rightly manipulated is capable of attracting ten dollars more. I have been in thirty-two States and never was in a community that there were not somebody who were dissatisfied and wanting to move somewhere, and thousands of them would come here if they only knew what we have to offer them.

Only let the people know of our glorious climate and health, and our unexcelled natural resources and educational and religious advantages, and thousands will come from the colder regions of our country.

Let every good business man in Gainesville who has a spark of patriotism join the board of trade and unite his talent and money to make this a magnificent city, and with the aid of an intelligent and progressive board of county commissioners—which we believe we have—nothing can impede our progress.

And last, but not least, is the power of the press. We must make free use of our county papers. I believe we have men at the head of our local papers who will stand by and aid any laudable means of advancing the interests of Gainesville and Alachua county. Let our business men keep the business enterprise and thrift of Gainesville always before the public, so that our county papers may always reflect the progress and push of our people.

The selection of Palatka as the next meeting place of the State Federation of Labor was a just and wise one. Palatka is about to come to the front and redeem herself from her seclusion of the past few years, and it was commendable on the part of the Federation to assist in the work, contributing its share towards bringing the Gem City into prominence. No city in Florida is more advantageously located than Palatka, and no city has a population as a rule more energetic or more hospitable; but it seems that for some reason Paltaka became affected with the "die-back," notwithstanding these advantages. Her good people, stimulated by the board of trade, however, have been revived, and that good old town will yet live to bloom and flourish as the green-bay tree. The facilities are in evidence. They have been lying dormant, but the people of Palatka have united in a determination to wake them up.

Preacher Found Dead.

Montgomery Ala., Jan. 25.—Rev. W. D. Brooks was found dead in the public road near the home of his son, Benjamin Brooks, several miles out from Andalusia. He was 84 years of age, and had started out to walk to a neighbor's. It is supposed he became exhausted and died as a result. He had been all his life a Baptist preacher.

THE PERFECT WAY

Scores of Florida Citizens Have Learned It.

If you suffer from backache, there is only one way to cure it.

The perfect way is to cure the kidneys.

A bad back means sick kidneys.

Neglect it, urinary troubles follow.

Doan's Kidney Pills are made for kidneys only.

S. B. Lemons, cigar maker, living at 1311 Ashlet street, Tampa, Fla., says: "I used Doan's Kidney Pills and they cured me of backache and disorder of the kidneys. Two or three times on account of the pain in my back I was unable to work for several days. The secretions of the kidneys were in a very bad condition, dark in color, and if allowed to stand would become of the consistency of jelly. I tried various remedies, taking what seemed like gallons of medicine and I also put on plasters, but nothing helped me at all until I got Doan's Kidney Pills upon the advice of a friend of mine, and using them according to directions they cured me in a very short time."

HERBINE

TRADE MARK

The Popular Liver Medicine Will Keep You Well

A GUARANTEED CURE for all diseases produced by TORPID LIVER and IMPURE BLOOD. Do not fill your system with Arsenic, Calomel and Quinine. They act as rank poisons which vitiate the blood, debilitate the system, and leave a trail of bad symptoms which require years to obliterate. HERBINE is purely vegetable and contains no mineral or narcotic poisons, is absolutely harmless and is the simple remedy of nature. It carries off all poison in the system and leaves no injurious effects.

CURED BY HERBINE AFTER OTHER REMEDIES FAILED

Mr. L. A. Hicks, Iredell, Texas, says: "I was sick in bed for eight months with liver trouble, the doctor seemed to do me no good. I was told to try Herbine, and it cured me in a short time. I cannot recommend this wonderful medicine too highly."

FEDERAL COURT WILL BE ESTABLISHED HERE

Alachua to be Transferred to Northern District of Florida.

IT MEANS A BIG THING TO CITY

Will Add a Great Deal to the Importance and Dignity of the City—Clever Work of Congressman Clark. Judge Syd L. Carter Writes Senators.

The news of the passage by the Lower House of Congress of a bill transferring Alachua county from the Southern District to the Northern District of Florida, and providing for the holding of terms of the United States circuit and district courts at Gainesville, which information was received through The Associated Press Saturday, has been received here with a great deal of enthusiasm by our people, especially members of the local bar.

The telegram announced that this bill passed the House on Friday. The bill was introduced by Hon. Frank Clark, Congressman from the Second District, who has championed its cause throughout with the same great success which characterizes the majority of his efforts.

Judge Syd L. Carter, president of the Alachua County Bar Association, has written congratulations to Congressman Clark, expressing the gratification of the Bar Association on the passage of the measure. Judge Carter has also written to Senator J. P. Taliaferro and Senator W. J. Bryan, asking their good offices in pushing the measure in its present form through the Senate. It is understood that Senator Taliaferro has already promised his support, and no doubt our new Senator will lend his aid.

Thus Gainesville continues on her march of progress.

SEA ISLAND COTTON.

Demand Active for Extra Fine Grades of Fleecy Staple.

Savannah, Ga., Jan. 25.—There was an active demand for extra fine, one buyer taking all of that grade that was offered at 16c. Fancy was quiet but firm, and all other grades were dull and easy. Sales showed an increase, and were well in excess of receipts.

The ginners' report on Thursday showed a total of 80,187 bales ginned to January 16, which was 6,559 bales addition since January 1. This has resulted in raising the crop estimate to 85,000 bales, or possibly a thousand or two more. After the corresponding time last year only about 2,000 bales more were ginned.

The following prices are based on factors' quotations and are revised weekly on Fridays:

The Joy

Of living is to have good health. Use Herbine and you will have bushels of joy. You need not be blue, fretful and have that bad taste in your mouth. Try a bottle of Herbine, a positive cure for all liver complaints. E. Harrell, Austin, Texas., writes: "I have used Herbine for over a year, and find it a fine regulator. I gladly recommend it as a fine medicine for dyspepsia." For sale by W. M. Johnson.

Earthquake Terrifies Populace.

Reggio Di Calbria, Jan. 25—A severe earthquake visited this province Thursday. Up to the present time no report of loss of life has been received. The shocks were particularly severe at the villages Bianco, Brancaleone, Bruzzano and Portigliano. Terrified, the people rushed from their houses to the open fields, or took refuge in the nearby subterranean grottoes.

BETTER THAN SPANKING.

Spanking does not cure children of bedwetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W, South Bend, Ind., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her today if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

Newbro's Herpicide

IS PRAISED BY

PAULA A. EDWARDES

Paula A. Edwardes, the well-known theatrical star writes as follows:

"I am charmed with Newbro's Herpicide. It is a refreshing hair remedy, producing a beautiful luster and a luxuriance of growth; at the same time keeping the scalp free from dandruff." Very truly yours,
New York City. (Signed) PAULA A. EDWARDES.

Good results from the use of Newbro's Herpicide mean as much to one person as to another, but on the other hand, the fact that leading theatrical stars prefer Newbro's Herpicide is an important point in its favor. Professional people have an inclination and an opportunity—not enjoyed by others—to discriminate in their choice of toilet remedies and their opinions should not go unheeded.

The extraordinary success of Newbro's Herpicide is due to the simple fact that it *kills the dandruff germ*. While other remedies treat the disease that results in hair loss, Newbro's Herpicide destroys the *cause* of the disease, after which nature grows the hair, if it is not too late.

Chronic baldness cannot be cured, but before the hair follicles are too badly diseased, one can, by careful treatment and intelligent sanitary care, keep down and ultimately destroy the tiny vegetable growth (dandruff germ) whose continued presence in the sebaceous glands of the scalp means hair destruction.

Ladies become enthusiastic over Newbro's Herpicide, because it brightens up the hair and keeps it light and fluffy.

Stops itching of scalp almost instantly.

Guaranteed under the Food and Drug Act June 30, 1906. Serial No. 915. **Two Sizes, 50c and $1.00 at drug stores. Insist upon Herpicide.** Send 10c in stamps for sample to The Herpicide Co., Dept. L, Detroit, Mich.

STRICTLY CASH BASIS SOON.

New York Banks Rapidly Retiring the Clearing House Certificates.

New York, Jan. 25—When business closed Thursday, all but $11,200,000 of the $97,000,000 in clearing house certificates issued by the Clearing House association during the recent financial flurry, had been retired.

Since Monday $7,800,000 of the clearing house certificates have been taken up, nearly $2,000,000 a day.

It is believed that practically the whole of the amount outstanding will be wiped out by the end of the week and that early next week the clearing house will again be on a strictly cash basis. The fact that the money is now flowing into the banks in large quantities is emphasized by the fact that the retirement of the certificates was simultaneous with the return of $10,000,000 of the emergency deposit made by the government during the height of the flurry. The highest rate for call money Thursday was 2½ per cent, most of the loans being made at 2 per cent and some at 2½ per cent.

Chamberlain's Cough Remedy a Safe Medicine for Children.

In buying a cough medicine for children, never be afraid to buy Chamberlain's Cough Remedy. There is no danger from it, and relief is always sure to follow. It is intended especially for coughs, colds, croup and whooping cough, and there is no better medicine in the world for these diseases. It is not only a certain cure for croup, but, when given as soon as the croup cough appears, will prevent the attack. Whooping cough is not dangerous when this remedy is given as directed. It contains no opium or other harmful drugs, and may be given as confidently to a baby as to an adult. For sale by all druggists.

Election Was Ratified.

Jackson, Miss., Jan. 24.—At a joint meeting of both branches of the Mississippi state legislature Wednesday the election of Hon. WAYLAID BY WHITECAPS.

Veterinary Surgeon Strung Up by His Thumbs and Thrashed.

Brookfield, Mo., Jan. 25—Information was received here Thursday that Dr. W. E. Carter, a veterinary surgeon of Nashville, was waylaid by whitecaps, strung up by the thumbs and thrashed on the bare back until he was exhausted in an effort to wring from him a confession to charge of wife beating and petty theft.

He was called eleven miles into the country, ostensibly to treat a sick animal, and was waylaid on the trip. After the punishment the masked assailants commanded him to leave the country within thirty days.

Dr. Carter has been confined to his bed because of his injuries and has endeavored to keep the matter secret. He denies the charges emphatically and expresses a determination not to leave.

Fell Between Moving Cars.

Columbus, Ga., Jan. 25.—F. A. Hindsman, yardmaster of the Southern railway in Columbus met a terrible death Thursday night, falling between two moving freight cars and being crushed. One or two cars passed over him, almost severing the body. It is believed that in walking from one car to another he made a misstep and fell. He was about thirty years of age, and married, and was a very popular secret order man. He was formerly a resident of Newnan, Ga.

ATURDAY'S SESSION A. M. E. CONFERENCE

e Session Was Well Attended, and Full of Interest.

ESOLUTION FAILED TO PASS

Provided for Creating the Sixth District for the Church, But Influential Workers Did Not Think Advisable, and Killed the Resolution.

(By R. D. McLin.)

As the Central Florida Conference aws near its close, interest seems to ow. The evening session, which we nounced in the previous issue, was led with interest, and the church as crowded until standing room was a premium. Rev. D. A. Perrin, D. D., E., of the Sanford District, South orida Conference, preached the missionary sermon to the delight of all. The missionary collection was 3.50.

The morning session opened at 9 clock, with Bishop B. T. Tanner residing. Father P. G. Goins conducted the preliminary devotion. The orning session was principally taken p in hearing committee reports. irst, second, third and fourth year's ommittees read interesting reports, nd recommended quite a number of oung men to the deaconate and lders' orders.

State of the church, state of the ountry, Bible course, circuit and stations committees also read excellent eports.

The recommendation for a new district, which was fostered by Rev. S. H. Hadley and a few others, did not find favor in the eyes of the brethren and was overwhelmingly defeated, the time seeming not ripe for a sixth district, and conditions would not warrant its being made.

Prof. A. St. George Richardson, A. M., president of Edwards-Waters College, Jacksonville, read his annual report. Prof. Richardson's report showed wonderful growth, which is the pride of all African Methodists in the State of Florida.

Drs. J. L. Moore and R. B. Brooks delivered short addresses and bade the brethren adieu, as they had to leave for their fields of labor.

Strong resolutions were read and unanimously adopted endorsing the candidacy of Dr. Brooks for financial secretary, and Dr. S. T. Tice for the bishopric.

The committee on state of church read a strong and interesting report which we submit for the benefit of those who may not know the strength of the A. M. E. Church in Florida.

Report of Committee.

"Committee Rooms, Central Florida Conference, Gainesville, Jan. 25.

"Rt. Rev. B. T. Tanner, D. D., Presiding Episcopate of the Eleventh Episcopal District, A. M. E. Church, and Members of the Eighth Session of the Central Florida Conference:

"We, your committee appointed on the state of the church, beg to make the following report:

"With hearts and minds uplifted to the bountiful giver of life for His many mercies extended to us during the past twelve months we come in to report that from data, observation and careful inquiry, we find the A. M. E. Church in Florida steadily on the increase; numerically, educationally, morally, temporally and spiritually.

"Forty years ago our church began operations in this fair Land of Flowers with a nucleus of about forty adherents, two or three preachers and no place of worship. But these brave men and women, with hearts aflamed with the religion of the lowly Nazarene, embued with the spirit of Allen, went out into the hedges and byways, and with earnest prayers, sermons, songs and exhortations, published the glad tidings of Peace on Earth and Good Will to Man.

"Today we can proudly boast of 50,000 members and as many more followers, 2,000 ministerial brethren—presiding elders, elders, deacons, licentiate local preachers and exhorters. We now have five annual conferences in the State, with territory ministers, and members enough for the sixth; with hundreds of beautiful church edifices, varying in costs from the modest church out in the interior of $100 and $200 to the city church of brick and stone of $25,000 and $50,000. All this accomplished within the short period of forty years.

"The church, morally and spiritually, has kept pace with the church numerically. We are pleased to say that we are gradually improving along all lines, and especially during this quadriennial, under the efficient management of our most able and worthy chieftain, Bishop B. T. Tanner, D. D. Our church has taken on new life and inspiration. With Edwards-Waters College again in operation, all internal differences rapidly being adjusted, we are sweeping onward, keeping step abreast of the most advanced Episcopal districts of this great church.

"In conclusion, looking forward to the general conference to convene in Norfolk, Va., in May, 1908, the A. M. E. Church of Florida, with her delegation of able and devoted men, in keeping with her sister Episcopal districts, knocks at the conventional doors for recognition in sharing in the conventional honors, and we (the church) must be reckoned with.

"Respectfully
"T. J. D. CUMMINGS,
"G. C. M'INTIRE,
"J. B. BLACKNELL,
"And Others,
"Committee."

Brethren of the conference will preach at the following named churches at Sunday services:

Bethel A. M. E. Church—11 a. m., Bishop B. T. Tanner, D. D.; 3 p. m., Rev. F. M. Johnson, D. D.; 7:30 p. m., Rev. N. B. Boyd, P. E.

PHOTOGRAPHY.

Photography today is an economic and social necessity in every community. It maintains the memory and affections of family life through the picture it makes, and which we could not now do without. How often is regret expressed that no picture exists of some friend or relative who is no longer with us! Sometimes, indeed, the camera has to intrude upon the sacredness of the death chamber itself when relatives feel that a photograph in such circumstances is better than none at all. Do not procrastinate. Be wise and "secure the shadow ere the substance fades."

The music came from Jacksonville, and altogether the affair was quite a success.

HYDE'S REMOVAL SALE.

Great Reductions Are Offered by This Popular and Reliable Firm.

As will be noted elsewhere in this issue, the great removal sale of The G. W. Hyde Company will be on for the next few days.

At this sale there are some remarkable bargains, because, as the firm says, it's easier to move the money than the goods.

Special prices and extra values are offered in many seasonable goods, and the prices are worthy the persual of prospective buyers.

Wilson's Special Sale.

Beginning Monday, January 27, Mrs. R. Wilson, the well-known and reliable merchant, will have a week of special reductions in everything in her line, which embraces everything in dry goods.

Mrs. Wilson is too well and favorably known among the ladies of this city and section for an introduction. Suffice to say, at this sale there will be offered some rare bargains in seasonable goods, and it will pay prospective purchasers to investigate.

Two New Cottages.

Two new cottages have just been completed, and will soon be ready for occupancy, on the corner of Pleasant and McCormick streets. They are six-room houses, having all modern conveniences.

The S. J. Thomas Co. have just finished installing porcelain bath tubs, closets and sinks in these cottages, which is a guarantee that the plumbing in these buildings is properly done.
